- tall and graceful
- fragrant flowers

6

### *Scilla peruviana*

- naturalises easily
- full sun or partial shade

7

### *Sparaxis*

- bright colours
- naturalises easily

8

### *Tritonia*

- late spring flowering
- range of flower colours

---

## Recipe for success:

- Select a site with free draining soil
- Add coarse sand to the planting hole
- Planting depth should be twice the diameter of the bulb
- Most spring bulbs should be planted in February
- Allow bulb foliage to die away naturally
